Subject: Lepic FOIA - meeting with FMC

Dennis/Rick/Linda –

Below is the email response Jonathan sent to Kelly yesterday when he seemed to be claiming he didn't know about the meeting with FMC today until he received the agenda and Powerpoint yesterday. Jonathan said he left Kelly a voicemail in mid-November when this meeting was scheduled. It has also been the subject of the weekly conference calls and included in agendas distributed via email.

I will come to the RTOC at 10:30 and try to help respond directly to questions.

Beth Sheldrake | Unit Manager
U.S. Environmental Protection Agency | Region 10
Office of Environmental Cleanup
Superfund Site Cleanup Unit #1
p: 206.553.0220 | c: 206.890-1827 | sheldrake.beth@epa.gov

Subject: RE: Agenda

Kelly:

I alerted the Tribes and IDEQ shortly after learning about the meeting. This has been a topic of conversation on more than one scheduled conference call with EPA, the Tribes, and IDEQ. The Tribes and IDEQ will be able to participate by telephone, and review in real time the presentation slides sent out earlier today.

I agree that interim remedy RD/RA is paramount, and redevelopment must be compatible with, and integrated into, the remedy. That's why, for example, we're considering building foundations and parking areas to be gamma caps just as areas to be covered with soil elsewhere within RA-G.

Looking forward to hearing you during the meeting tomorrow. Please call ahead of time if you have questions. Thanks.

Subject: RE: Agenda

Jonathan, this is concerning that EPA is having a meeting about FMC at a rather short notice. Granted, I understand that FMC is responsible for this but trust me, getting meeting set up with EPA at a short notice is rather hard to do. Tribes would have preferred to be in person with these meetings rather than on a call. Redevelopment should not be the primary focus at this point in cleanup.

It's getting rather frustrating that FMC does not respect the fact that things generally follow a specific protocol for reviewing documents rather than simply telling us when and what to do.

Look forward hearing tomorrow's meeting.

Thanks

Kelly

The December 10 meeting will be at EPA's office in Seattle. I will plan to provide the Tribes and IDEQ with call-in and adobe connect information later today so that you can see the FMC presentation and participate in the conversation.

Jonathan

Where is this meeting taking place?

Susan Hanson

On Dec 9, 2015, at 11:48 AM, Williams, Jonathan <Williams.Jonathan@epa.gov> wrote:

I will be e-mailing Marjo shortly to acknowledge receipt, and alert her that the agenda appears to be lacking anything about the groundwater remedy conversation which she, me, and Rob Hartman from MWH had last Friday.

During that conversation, I reminded FMC/MWH that compliance monitoring wells need to be located both beyond the extraction well point of stagnation and where the American Falls Lake Bed is present. That's consistent with EPA comments provided July 17, 2015. I pointed out that the groundwater remedy intermediate RD (received December 1) does not explain and illustrate how this will be accomplished. I also explained why it appears that extraction wells might need to be placed further up gradient than now proposed by FMC; possibly within the footprint of a proposed warehouse.

Before I e-mail Marjo about this...are there other concerns about the meeting agenda that I should raise with her?
